### Jane Dummer is Online

May 30th 2009

-----  
-----

After only a few weeks of design and development, Jane Dummer's website is now online and generating traffic. After working with Two Blonde Chicks (<http://www.twoblondchicks.com> ) who designed the layout of Jane's website, Dave Kerfoot was able to setup, develop and publish Jane's website in less than a two weeks.

### Linetech Design & Mfg. Website

April 20th 2008

-----  
-----

Linetech Design & Mfg. is a world leader in innovative striping technology. They manufacture truck mounted pavement marking equipment to the highest standards of quality and workmanship with emphasis on high road production, durability, ease of operation and minimum of down time and maintenance.

Gordon Peckover contacted Dave Kerfoot in need of a new design as well as a CMS (Content Management System) that their staff could use to easily update and change content after it had been created.

We redesigned their existing website and setup the open source CMS (Content Management System), Joomla.
